Project

Field(s) Music, festivals - Festival of Opera and Classical music *Opera Nights*

Description *Opera Nights* Festival takes place in two historical monuments, Corvin's Castle in Hunedoara and Magna Curia Palace in Deva, both in Hunedoara County.

The purpose of the Festival is to produce opera, operetta and ballet performances during five consecutive nights and a night in which the Opera Ball will take place. The performances will be presented by ensembles of opera, operetta and ballet invited not only from Romania, but also from other European Union countries.

During the day we plan to organize cultural moments of smaller, related genres - chamber music, jazz, blues, musical entertainment moments that will take place in the two areas and their immediate neighbourhood, also presented by ensembles from Romania and other European countries.

Because in the two locations there are many spaces with unconventional appearance, these will be used for exhibitions of plastic arts, photography, contemporary art and experimental arts.

Profile	<p>We are looking for partners interested in building a cooperation based on the main activities of Opera Nights Festival.</p> <p>Our idea is to have the same group of master-classes canto graduates, trained in every partner's place by different teachers and giving concerts together. Because one of our piece for Opera Nights 2016 Festival will be Carmina Burana, we also think that a group of 10 teenagers, choir-singers, could be trained by each partner and then coming in Romania for performing.</p> <p>We are opened to every suggestions.</p>
