Project

Field(s)	Performing art, digital and audio-visual technology
Description	In the centre of tender application, 2015 of the Foundation's idea there is a musical performance that plays most beautiful pieces of Gipsy music enabling a virtuoso performance. This is done by innovative and modern way since musical play story (written by Mr. Laszlo Bartok) is performed within a computer program by application of digital and audio-visual elements. Final product of the project includes performance of the play, computer program and their presentation in the web, preparation of CD of music and a conference under following title: „Presentation and promotion of Gipsy music by digital equipment in the EU”. Later the ensemble wishes to go on tour within the EU. They expect partner organizations who are willing to help the ensemble in fulfilling the above aims.
